

May 3rd & 4th 2014

Pokagon State Park Trine State Recreation Area **Welcome Back Weekend!** Interpretive Programs:

Saturday:

11:00am to 1:00pm REMC Geothermal Open House!

Come to the Wild Turkey Shelter at the new Trine State Recreation Area across from Pokagon State Park for a special open house to highlight the heating and cooling system, using geothermal technology, of the Welcome Center there. Members of the local electric cooperative and a company that provides such units will be on hand to demonstrate and answer questions. A light lunch and prizes will be provided. An on-going slideshow by Pokagon Interpreters in the Welcome Center, will document the development and special resources of the Trine SRA, including details on the Welcome Center's unique heating and cooling.

3:00pm Garlic Mustard Pulling Party!

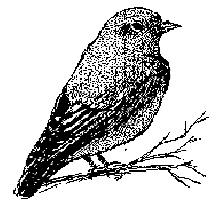

Meet in Nature Center Program Area for a quick talk on this pesky invasive weed and then we will spend some time pulling and bagging in a nearby area where we are encouraging native wildflowers to thrive. Wouldn't be a party without refreshments!

Sunday:

8:00am Early May Migration.

Meet on Potawatomi Inn Sundeck for our year-round tradition, the Sunday morning walk from the Inn. We'll welcome spring/summer birds back this morning as well!

2:00 to 4:00pm A Welcome Back Casual Campfire!

Stop by the Nature Center front lawn program area where we'll have an interpreter on hand with a critter or two from the Nature Center or some object of interest to Pokagon this new camping season! Toast a marshmallow or just poke the fire as a picnicking-camping tradition!
